

# December (feat. Davey Havok)

## Seven Lions

I saw  
Your breath  
Decorate the air Snow blind  
We love  
A fire burning down I gave  
My breath  
On your lips it froze My heart  
We love  
A fire in the snow  
Meet me once more  
Where we met before  
It's growing colder  
Will you remember  
To fall like the snow  
Holding me close  
Bring me winter  
My dear December Meet me once more  
Where we met before  
It's growing colder  
Will you remember  
To fall like the snow  
Holding me close  
Bring me winter  
Bring me winter My dear December  
My dear December  
My dear December  
My dear December  
My dear December Meet me once more  
Where we met before  
It's growing colder  
Will you remember  
To fall like the snow  
Holding me close  
Bring me winter  
Bring me winter My dear December  
My dear December I saw  
Your breath  
Decorate the air Snow blind  
We love  
A fire burning down I gave  
My breath  
On your lips it froze My heart

We love  
A fire in the snow
