I need you
                  What I gotta do
              (Baby I want you bad)
                    I need you
                    I need you

                  There's nothing
                   I wouldn't do
                    To get back
                   What we had
                When love was true
                   (Oh, oh, oh)
                      No lie
                    I'd give up
                     All I got
                      Just so
                  I could get back
                    In my spot
            (Ooooh)Boy I need you bad
                   As a heartbeat
              (Bad like the food I eat)
              Bad like the air I breath
              (Baby, I want you bad)
                  I need you bad
                I can't take this pain
             (Bad I can't take this pain)
                       Boy
