

# Take It to the Limit

Danny Gokey

If you wanna be free  
We got it at your feet and let it all go  
Live it right will never die  
With our name in the sky  
Like theres no one around  
Break everything thats been holding you  
Take it to the limit  
Take it to the limit  
Let me take you to the moon  
Take it to the limit  
Take it to the limit  
Take it to the limit  
We gonna fight it  
We gonna holdit up  
Gonna turn it up  
We dont have to fake it up  
We can change games  
It wont be the same  
Let this feeling take you beyond the moon  
Take it to the limit  
Take it to the limit  
Take it to the limit  
Take it to the limit  
I know this is our moment  
There is an explosion ready to blow  
Tonight well jump on the ride  
We never felt so alive in our body and soul  
Break everything thats been holding you  
Take it to the limit  
Take it to the limit  
Let this feeling take you beyond the moon  
Take it to the limit  
Take it to the limit  
Take it to the limit  
We gonna fight it  
We gonna hold it up  
Gonna turn it up  
We dont have to fake it up  
We can change games  
It wont be the same  
Let this feeling take you beyond the moon  
Take it to the limit

Take it to the limit  
Take it to the limit  
Take it to the limit  
Well gonna take it to the limit  
Ill take you there,  
I said Ill take you there  
Well gonna take it to the limit  
Take it to the limit  
We gonna fight it  
We gonna hold it up  
Gonna turn it up  
We dont have to fake it up  
We can change games  
It wont be the same  
Let this feeling take you beyond the moon  
Let this feeling take youu beyond the moon  
Take it to the limit  
Take it to the limit  
Take it to the limit  
Take it to the limit  
Take it to the limit  
Take it to the limit  
Take it to the limit
