

# House of Broken Love

## Great White

Come the morning don't you wake me  
I'll be dreaming that I'm free  
Come the daybreak don't you shake me  
Send me back to misery 'Cause I'm dealing with the devil  
With no help from above  
I'm stealing with the devil  
Through this house of broken love Taking chances with you, baby  
I saw something in your eyes  
And though no one else could blame me  
There were signs I should have recognised  
Now I'm dealing with the devil  
With no help from above  
I'm sleeping with the devil  
In this house of broken love, broken love If you don't want to lose my loving  
Use it constantly  
If it's going to be lies  
Suspicious eyes  
Then, baby, oh baby, set me free When the night falls and she's leaving  
The moon shines so cold and grey  
Hear my heartbeat yeah yeah hear me weeping  
Pain and sorrow's here to stay Now I begged you, baby, help me  
But you turned your back on me  
You didn't even listen  
When you should have set me free  
Now I'm leaving with the devil  
Going to leave this search for love  
I'm leaving with the devil  
Leave this house of broken love, broken love
