

The Way It Goes

Gloriana

So Glad I hung up the phone
My best friend called and told me not to go
I'd just get my heart broke one more time.
I Walked in and there you were
Looking better than I ever remembered
Smiling that smile like nothing ever happened.
You were never not mine.Crazy.
I know, I know, I know, I know, I knowAin't that the way it goes
Always stumbling into something
Lifes an open road you've got to take
If you just let go
Lose your way to find that one thing
That you've been missing.
You almost missed it all.
So glad I turned around
I know where I'd be right now
Somewhere downtown thinkin' about what could have been
and love would never be againCrazy...
I know, I know, I know, I know, I knowAin't that the way it goes
Always stumbling into something
Lifes an open road you've got to take
If you just let go
Lose your way to find that one thing
That you've been missing.
You almost missed it all.But I didn't
I turned that car around
thank god i put that phone down
so glad I didn't listen
never know what I'd be missing
Ain't that the way it goes
Always stumbling into something
Lifes an open road you've got to face itCrazy.
I know, I know, I know, I know, I knowAin't that the way it goes
Always stumbling into something
Lifes an open road you've got to takeYou gotta take itIf you just let go
Lose your way to find that one thing
That you've been missing.Ain't that the way it goes
Always stumbling into something
Lifes an open road you've got to takeYou gotta take itIf you just let go
Lose your way to find that one thing
That you've been missing.
You almost missed it all.You almost missed it all.You almost missed it all.
