

Remedy

Ali Gatie

Music to my ear you my melody
Late nights feeling sick you my remedy
I remember every moment every memory
Sipping on you fuck sipping on the hennessy
Have you living in the hills, out in beverly
Yeah we coulda been forever been a legacy
But you tryna fight claiming that we enemies
Thinking bout the jealousy forgetting all the chemistry Whatever happened to together till we 70
We moved apart girl now we living separately
I remember you, can't you remember me
Loving you my speciality, you my secret recipe You helped me find my self a part of my identity
My love my oxygen to me you a necessity
I hope this reaches you if not its my serenity
Bars on my mind like I'm convicted for a felony
And ahh that was a hard time
Its been a while since we talked its been a long time
I been on my phone, checking if you online
Stalking up ur page, wonder if you're on mine Been a couple years, thought that id be over you
Still hold the tears, when I think of holding you
You left and disappeared, I can't get a hold of you
I can't believe you'd me wrong, was someone else controlling you? Cuz after all the times,
everything we been thru
Every time you lie, I'd always defend you
When I saw you cry, id just hold you gentle
For you I prayed to god, to me you like a temple So tell me did you love me? Or did you
pretend to?
Every time you touched me, was it even special?
Was I priority? Or squeezed into schedule
Baby you angel same time you the devil
After all the times, everything we been thru
Every time you lie, I always defend you
When I saw you cry, id just hold you gentle
For you I prayed to god, to me you like a temple Hook Music to my ear you my melody
Late nights feeling sick you my remedy
I remember every moment every memory
Sipping on you fuck sipping on the hennessy Have you living in the hills, out in beverly
Yeah we coulda been forever been a legacy
But you tryna fight claiming that we enemies
Thinking bout the jealousy forgetting all chemistry
