

# Mile High (feat. Travis Scott & Metro Boomin)

## James Blake

[Intro: James Blake]

Don't wanna see me by yourself, by yourself  
By yourself, by yourself, by yourself[Verse 1: Travis Scott]

We on a drive, looped in  
Two seat ride, couped in  
Who gon' slide? Who's in?  
Big rocks 'round of ten  
Fleetwood down, new sand  
Two seat ride, couped in  
Don't leave 'round loose ends  
Don't be around new friends, yeah

[Chorus: Travis Scott]

We just be mile high clubbin'  
I'm on a thousand miles runnin'  
Hit it, go downtown Sunday  
Then move it uptown Monday[Post-Chorus: James Blake]

Don't wanna see me by yourself, by yourself  
By yourself, by yourself, by yourself[Verse 2: Travis Scott]

If I give it to you, will you leave?  
Tell it to you, will you speak?  
Got it tatted on my sleeve  
Fell in love overseas  
Ass fatter than a peach, uh  
Ocean water kinda deep, uh  
Rollin' up out the reef, uh  
Put me down, straight to sleep

[Refrain: Travis Scott & James Blake]

Flashin' light, do it sell?  
Flashin' light, do it sell?  
40 days, 40 nights  
Feel like a holy night  
The lesson's always there  
That less is always more  
And in the back and forth  
I'm not keeping score  
Lesson's always there  
That less is always more  
When you're alone with me  
You never come up short  
You never come up short

(Never come up short, never come up short, never come—)[Verse 3: James Blake]

Watch the fan as it spins

In my arms, wrapped in  
Don't know where you start  
And where I begin  
Like I found myself an imaginary friend  
And when we stay in  
I'm missin' everything[Chorus: Travis Scott]  
We just be mile high clubbin'  
I'm on a thousand miles runnin'  
Hit it, go downtown Sunday  
Then move it uptown Monday[Post-Chorus: James Blake]  
Don't wanna see me by yourself, by yourself  
By yourself, by yourself, by yourself[Verse 4: James Blake]  
Hi-vest, never seen  
Low-key as it's been  
Fell in love overseas  
Fell in love like it's easy  
Put to sleep without dreams  
Under the moonbeam  
Call you for no reason  
Hold on like it's greasy[Refrain: Travis Scott, James Blake & Both]  
Flashin' light, do it sell?  
Flashin' light, do it sell?  
40 days, 40 nights  
Feel like a holy night  
The lesson's always there  
That less is always more  
And in the back and forth  
I'm not keeping score  
Lesson's always there  
That less is always more  
When you're alone with me  
You never come up short  
You never come up short  
(Never come up short, never come up short, never come—)[Outro: James Blake]  
Don't wanna see me by yourself, by yourself  
By yourself, by yourself, by yourself
