Nadia Ali - Love Story  
If you ask me  
I will say it  
You make me smile,  
It's contagious,  
And in your eyes,  
I can see it,  
Cuz your heart  
Is the greatest.  
And I can't be without you  
So don't go anywhere,  
You show me love like no one else has done yet,  
And with the road ahead,  
This is the beginning  
Of this love story,  
Of this love story. When I'm with you,  
I am taken,  
With the feeling  
That you've been chosen,  
What I'm longing  
Is the best thing,  
In a long time  
That I'm not broken,  
And I can't be without you  
So don't go anywhere,  
You show me love like no one else has done yet,  
And with the road ahead,  
This is the beginning  
Of this love story,  
Of this love story. Of this love story,  
Of this love story.
