

Friction

Imagine Dragons

I get down with the victim
We both know you need them
To stuck in the middle of all irrelevance
And your heart is a beating
Cause you know that you gotta
Get out of the middle
And rise to the top now When you've made it, won't ya tell me what to do
Cause I'm playin' it all wrong
When you've made it, won't ya tell me what to do
Cause I'm playin' it all wrong You can't fight the friction, so, ease it off
You can't take the pressure, so, ease it off
Don't tell me to be strong, so, ease it off
You can't fight the friction, so ease it off
And get into the system
We both know you need one
At the tip of the needle
It's taking over you
And your heart is beating
Cause you know that you gotta
Get out of the middle
And rise to the top now When you've made it, won't ya tell me what to do
Cause I'm playin' it all wrong
When you've made it, won't ya tell me what to do
Cause I'm playin' it all wrong You can't fight the friction, so, ease it off
You can't take the pressure, so, ease it off
Don't tell me to be strong, so, ease it off
You can't fight the friction, so ease it off
Why can't you let it go
Like a bird in the snow
This is now place to build your home You can't fight the friction, so, ease it off
You can't take the pressure, so, ease it off
Don't tell me to be strong, so, ease it off
You can't fight the friction, so
