

# Dunno

## Mac Miller

    Hmm-hmm  
    Hmm-hmm  
    YeahShe do whatever she like  
    And that just don't seem right, yeah  
    Make people so mad, yeah  
    And want her so bad, hm, well  
    We was fuckin', almost missed my flight  
I wasn't even trippin', I said its all right, yeah  
    Goddamn, we was hit last night  
    Wouldn't you rather get along?  
    Wouldn't you rather get along?  
    You was coughin' when you hit my weed  
    But I've never seen you feel that free  
    So cute, you wanna be like me  
    Wouldn't you rather get along?  
    Wouldn't you rather get along?  
    Until, until, there is no longer  
    Let's get lost inside the clouds  
    And you, you don't gotta work harder  
I can calm you down, yeahWell I was busy when you hit my phone  
    But you miss me, tell me come back home, yeah  
    You don't really like to sleep alone  
But I'm taking too long, I'm always taking too long  
    Baby we don't need a trip, we could be right here  
    When the shit get weird, we could switch up gears  
    I wanna see them lips, kiss 'em ear to ear  
    I wanna hear your song  
    Ooh, I wanna feel just how you feel  
    Touch it one more time so I know you're real  
We could spin that wheel, wouldn't you rather get along?  
    Until, until, there is no longer  
    Let's get lost inside the clouds  
    And you, you don't gotta work harder  
I can calm you downI think we just might be alright, thank God  
    I think we're gonna be alright, alright, okay  
    Hold me close don't hold your breath  
    That's really your favorite, I know
