

Love Is Everything

Deee-Lite

Love is everything, love, love, love
Love is everything, love, love, love
Love is everything, love, love, love
Love is everything, love, love, I woke in the middle of the night
Just to see how you look
When you're sleeping I don't need a conversation
I just want to feel your vibration, oh
I know your dreaming
And I hope it's about me Real, real, alright
Real, real, real, real, yeah
Sometimes you talk too much
No words, only melodies
And there's nothing else to say
Nothing else to say
The words just get in the way I've got to find our melody
Bring it back to me, yeah
Bring it back to me
'Cause I know, I know, I know
That you can feel it when it's real There's a smile on your face
And it reminds me
How much I like my place
Right next to you Real, real, alright
Real, real, real, real, hey, hey, hey
Follow your dreams
No matter, how far they seem
Searching for the reason, the mystery We can only dream, we can only dream
We can only dream, we can only dream
We can only dream, we can only dream We can only dream, we can only dream
We can only dream, we can only dream
We can only dream, we can only dream
We can only dream, we can only dream
We can only dream, we can only dream
