

Deliverance

[RY X](#)

I've been calling up and say
your lungs
feeling up your mind with my tongue
I didn't need to know but now I need to run
Tonight we're young we ...
I've been awake for deliverance
deliverance
deliver me
I've been awake for deliverance
deliverance
deliver me
Holding up behind forgotton
Ready for your bye to be strong
Reading a head before I might ... a stung
Tonight we rough, we ...
I've been awake for deliverance
deliverance
deliver me
I've been awake for deliverance
deliverance
deliver me
I've been awake for deliverance
deliverance
deliver me
I've been awake for deliverance
deliverance
deliver me
tonight we're young
I've been awake for deliverance
deliverance
deliver me
deliverance
deliver me
deliverance
deliver me
deliverance
