

Acting Like That (feat. Iggy Azalea)

Jennifer Lopez

I've been down since day 1 yeah
I'm the only one that been right here
Why you acting like you don't care?
I've been down since day 1 Don't let the tables turn
Don't let the bridges burn
Been down for you
Don't get it confused, boy
You could lose your turn
Don't let the tables turn
Don't let the bridges burn
Cause everything could change
In a matter of days
Depending if you've learned
Why you acting like that?
You gon' miss me when I'm gone
Why you acting like that?
(Why you acting like that?)
Why you acting like that?
You gon' miss me when I'm gone
Why you acting like that? When I leave I'm taking all
Baddest bitch in the world right here
You ain't even gotta go nowhere Boy you better watch the way you walk
Cause if you trip, you're gonna fall, oh Don't let the tables turn
Don't let the bridges burn
Been down for you
Don't get it confused, boy
You could lose your turn
Don't let the tables turn
Don't let the bridges burn
Cause everything could change
In a matter of days
Depending if you've learned
Why you acting like that?
You gon' miss me when I'm gone
Why you acting like that?
(Why you acting like that?)
Why you acting like that?
You gon' miss me when I'm gone
Why you acting like that?
When I leave I'm taking all (Iggy, Iggy, Iggy, Iggy, Iggy, Iggy) Well shit, she may never
My love cost too baby, ain't nothing free
Check my angle, daddy, you could call me angel, daddy

Uh, but you gon' turn your beauty right into a beast
Now, this is for business or pleasure, let's keep 'em separate
I ain't tryna be second, just for the record
See you slippin' you trippin' thought I should let you know
I admire your effort but I need better love
See many men try to play me 'til they get scared away
Told 'em that's a fall, try another day
But this is different, now I'm seeing that it isn't
Promise I'm not gon' cry here like Mary Jane
Now ain't that funny, that you was something
special 'til
I noticed that you just like these losers who come in several
But I, know that if you leave you comin' right back
So my question boy is, why you acting like that?
Don't let the tables turn
Don't let the bridges burn
Been down for you
Don't get it confused, boy
You could lose your turn
Don't let the tables turn
Don't let the bridges burn
Cause everything could change
In a matter of days
Depending if you've learned
Why you acting like that?
You gon' miss me when I'm gone
Why you acting like that?
(Why you acting like that?)
Why you acting like that?
You gon' miss me when I'm gone
Why you acting like that?
When I leave I'm taking all
