

# Not That Kind of Girl (Live Demo)

## My Chemical Romance

Everybody's talking 'bout the way you left your man  
So wave goodbye and  
Everybody's talking 'bout the way you held his hand  
So we'll grip real tightCause we're all just drowning  
All just drowning  
These boots are made for walking  
And that's just what they'll doSo say goodbye to all my friends  
I fell in love with her again, my baby  
'Cause I'm not that kind of girl  
So say goodbye to all my friends  
I fell in love with her again, my baby  
'Cause I'm not that kind of girl  
Everybody's talking 'bout the way you cut your hair  
I could give a fuck and  
Everybody's talking 'bout the way you smoke that there  
I don't care at allCause we're all just drowning  
All just drowning  
One of these days these boots are gonna walk all over you!So say goodbye to all my friends  
I fell in love with her again, my baby  
'Cause I'm not that kind of girl  
So say goodbye to all my friends  
I fell in love with her again, my baby  
'Cause I'm not that kind of girl  
All your life  
I let  
You down  
All your life  
I let  
You down  
Not again, not again, not againSo say goodbye to all my friends  
I fell in love with her again, my baby  
'Cause I'm not that kind of girl  
So say goodbye to all my friends  
I fell in love with her again, my baby  
'Cause I'm not that kind of girlSay goodbye  
Say goodbye  
My friend  
'Cause I'm not that kind of girl
