

# disappear

eli.

If I begged and if I cried  
Would it change the sky tonight?  
Would it give me some light?  
Should I wait for you to call?  
Is there any hope at all?  
Are you drifting by When I think about it  
I know that I was never there or even cared  
The more I think about it  
The less that I was able to share with you  
I try to reach for you, I  
Can almost feel you you're nearly here  
And then  
You disappear (disappear, disappear, disappear)  
You disappear (disappear, disappear, disappear)  
And when I lie all by myself  
I see your face, I hear your voice  
My heart stays faithful  
And time has come and time has passed  
If it's good it's got to last  
It feels so right When I think about it  
I know that I was never there or even cared  
The more I think about it  
The less that I was able to share with you  
I try to reach for you, I  
Can almost feel you, you're nearly here  
And then  
You disappear (disappear, disappear, disappear)  
You disappear (disappear, disappear, disappear)  
You, you disappear (disappear, disappear, disappear)  
(You disappear)  
I missed all the signs, one at a time  
You were ready  
What did I know?  
Starting our lives  
Now my love, I'm ready to show When I think about it  
I know that I was never there or even cared  
The more I think about it  
The less that I was able to share with you  
I try to reach for you, I can almost feel you, you're nearly here  
And then  
You disappear  
You disappear, you disappear

You disappear, disappear  
You disappear
