

The Spark (feat. Spree Wilson)

Afrojack

A little bit of misfit dancing
A little bit of jojo dancing
A little bit of thoughts of mine
Coming out the mind of this midnight Rambler
I can't wait 'til these tunes of mine
Get me out of this local jam
Get up, up on that big stage now Show the world just who the heck I am
Ever thank you if it all goes right
You got something that could change your life
Use that moment just to show your life Everything is gonna be alright
Crashing through the stars, alright
I'm screaming 'til the stars collide
I'm tellin' everybody, that's right
We all got the spark
We all got the spark tonight
Takin' back the way we are
'Cause that's just the way we are
I'm crashing through the dark, well alright We all got the spark
We all got the spark tonight
They say if you look around
For something hard enough
And you just might find it And there's some around who wanna keep you down
But Shawty don't be blinded
Feeling trapped
Thinking that you can't get out of this hum drum scene
Time to turn this thing upside down
Show these people what you really mean
Everything that you could lose your mind
Could it be the big dream you'll find
No more waiting 'cause it's almost time
Everything is gonna be alright
Crashing through the stars, alright
I'm screaming 'til the stars collide
I'm tellin' everybody, that's right We all got the spark
We all got the spark tonight
Takin' back the way we are
'Cause that's just the way we are
I'm crashing through the dark, well alright We all got the spark
We all got the spark tonight
I'mma feel this forever
Or even if it's just tonight
I can see the end much clearer Even when I close my eyes

Tryin' to keep myself from falling
Tryin' to get this thing right
I gotta do this more often Well, well maybe tonight
Crashing through the stars, alright
I'm screaming 'til the stars collide
I'm tellin' everybody, that's right We all got the spark
We all got the spark tonight
Takin' back the way we are
'Cause that's just the way we are
I'm crashing through the dark, well alright
We all got the spark
We all got the spark tonight
(Yeah, we all got the spark
We all got the spark tonight)
(Yeah, we all got the spark
We all got the spark tonight)
