

Mr. President

Pia Mia

Doctor, I need medicine
Cheerleader need her letterman
Yeah, knock knock, let me in
Give you a late show like Letterman
I'm right here boy, what you doing 'bout it?
Step up or go, do without it
I'll be waiting, anticipating
I got ya going 90 on the highway
Rolling up to my driveway
See the look on my face?
I'm not the girl next door
You should already know know know
You should already know know know
How this thing 'bout to go go go
You should already know
Imma say it again
You should already know
Thought that I told you
You should already know
When you came over
You should already know
I need a soldier
You should already know know know
Hey there, Mr. President
I could be your Marilyn
Yeah, tryna talk, I ain't hearing it
And what I got, I ain't sharing it
It's for you boy, what you doing 'bout it?
Step up or go, do without it
I'll be waiting, anticipating
I got ya going 90 on the highway
Rolling up to my driveway
See the look on my face?
I'm not the girl next door
You should already know know know
You should already know know know
How this thing 'bout to go go go
You should already know
Imma say it again
You should already know
Thought that I told you
You should already know

When you came over
You should already know
I need a soldier
You should already know know know
I don't want no one but you
Oh baby, baby
Oh baby, baby
I don't want no one but you
Oh baby, baby
Oh baby, baby
You should already know know know
You should already know know know
How this thing 'bout to go go go
You should already know
Imma say it again
You should already know
Thought that I told you
You should already know
When you came over
You should already know
I need a soldier
You should already know know know
