

Bigger

Sugarland

People walking around like the world's about to end
And if you're asking me, my mouth would agree
These days we all feel small my friend
It's getting harder and harder to hold our heads up high
Baby let's circle the wagons, show all the dragons
They don't own the sky, we know how to fly Gravity can't hold us down
We're moving at the speed of sound
Past the point from here on out
There's no going back
'Cause we were born for better days
We'll find a way, yeah, we're gonna be bigger
Don't give up, you're more than enough
Believe me love, yeah, you're gonna be bigger Looking at everybody else and you hate yourself
And it hurts your heart
And yeah it's easy to let it make you forget it
You are perfect the way you are Gravity can't hold you down
You're moving at the speed of sound
Past the point from here on out
There's no going back 'Cause we were born for better days
We'll find a way, yeah, we're gonna be bigger
Don't give up, you're more than enough
Believe me love, yeah, you're gonna be bigger
If they're uninvited
Don't shut your mouth, don't keep quiet
Just let 'em know that they can't try it
That this body's your temple and they can't buy it
'Cause nobody's money, no amount of power
No kind of bait can make you take it and hate yourself
For what they did, you won't forget, you can forgive
They think they're big but you're bigger 'Cause we were born for better days
We'll find a way, yeah, we're gonna be bigger
Don't give up, you're more than enough
Believe me love, yeah, you're gonna be bigger 'Cause we were born for better days
We'll find a way, yeah, we're gonna be bigger
Don't give up, you're more than enough
Believe me love, yeah, you're gonna be bigger
Yeah, you're gonna be bigger
