

All over You

LEISURE

I can't back up
But it's not about us
This is not about us
I hold you up
But it's not about us
This is not about us

Because you got me where you want me and you do it 'cause you know me well
And I don't wanna be here waiting 'cause that always seems to bring me down
And it's a shame 'cause I want it but you say this is not about us
Yeah you had me when you did it and you do it to me so damn well

And now I'm all over you
I don't really wanna think about the rest of our lives
And now I'm all over you

I don't really wanna think about the rest of our lives

I know it's cold
But it's not about us
This is not about us
Is taking hold
But it's not about us
This is not about us

Cause you got me where you want me and you do it cause you know me well
And I don't wanna be here waiting cause that always seems to bring me down
And it's a shame cause I want it but you say that it's not about us
Yeah you had me when you did it and you do it to me so damn well

And now I'm all over you
I don't really wanna think about the rest of our lives
And now I'm all over you

I don't really wanna think about the rest of our lives
