

What You're Worth (feat. Britt Nicole)

Mandisa

Come on, ladies! Who you gotta be
What you gotta do
What you gotta say
If you gotta bend too far to please, you're gonna break Yeah they dragged you down
And left you low
But they can't take your soul
Set it free
Set it free
Let it go
You gotta fight
Stand up strong
You got a fire
So let it burn on
Show 'em what you're worth
Show 'em what you're worth
Show 'em whatcha
Show 'em what you're worth
Show 'em what you're worth
You gotta roar
Get up and shout
Ain't gotta blend in
Go on and stand out
Show 'em what you're worth
Show 'em what you're worth
Show 'em whatcha
Show 'em what you're worth
Show 'em what you're worth
Show 'em whatcha
Sing, Britt! They might think those dark deeds hide behind the veil
But the light shines in and innocence has never been for sale Yeah, they dragged you down
And left you low
But they can't take your soul
Set it free
Set it free
And let it go (yeah!) You gotta fight
Stand up strong
You got a fire
So let it burn on (let it burn on!)
Show 'em what you're worth
Show 'em what you're worth
Show 'em whatcha
Show 'em what you're worth

Show 'em what you're worth
You gotta roar
Get up and shout
Ain't gotta blend in
Go on and stand out (Go on and stand out!)
Show 'em what you're worth
Show 'em what you're worth
Show 'em whatcha
Show 'em what you're worth
Show 'em what you're worth
Show 'em whatcha Show show show show
Show 'em what you're worth (Show 'em watcha)
Show 'em what you're worth (Show 'em watcha)
Yeah, yeah
Show show show show
Show 'em whatcha
Show 'em what you're worth
Show 'em what you're worth I got this funky kinda swagger
Only some can understand-a
The kinda swag that only comes from my designer
See, I'm not sensitive
To who you think I is
I've been created for a purpose that is solely His
Know what I'm worth and, aye!
Don't plan on playing games
I'm a destiny's child
I say His name, say His name
Jesus the only one
Stick closer than a friend
And watch that fire deep inside you never die again You gotta fight
Stand up strong
You got a fire
So let it burn on (Let it burn on!)
Show 'em what you're worth
Show 'em what you're worth
Show 'em whatcha
Show 'em what you're worth
Show 'em what you're worth
(Come on and show 'em what you're worth!)
You gotta roar
Get up and shout
Ain't gotta blend in
Go on and stand out
Show 'em what you're worth
Show 'em what you're worth
Show 'em whatcha
Show 'em what you're worth
Show 'em what you're worth
Show 'em what you're worth

Show 'em whatcha
Show 'em what you're worth
Show 'em what you're worth Yes, girl!
