

Young Love

Chris Brown

Song: Young Love

Artist: Chris Brown

Album: Chris Brown Young love

A teenage love

Young love, yeah

A teenage love Young love, young love everything I need

I got my young love

A teenage love

Young love

Young love, girl

A teenage love

Tell me what's the definition of love

Seems like everybody thinks they done figured it out but

Every time they fall up in it

They fall out, in and out it again Tell me how they gonna know about us

Tellin' me and you that we ain't even been around long enough

We can prove 'em wrong, show 'em how it's done

I know we can do it because If it's wild and out, we got that

And forgiving, we got that

If it's talkin' 'bout how we feelin', we got that

And just hanging out, keeping it real then we got that

Me and you know what the deal is but Since we ain't 21, they be tryna say it ain't love

'Cause we can't hit the clubs, they be tryna say we're too young

I ain't sayin' that we're tryna be grown

I'm just sayin' that we're old enough to know

We got that young love, young love

We lucky 'cause we got that young love

It's crazy how all our friends say

That we gone they still tryna figure us out, babe

'Cause we always together

And we don't gotta front, we ain't gotta pretend, girl And you know a couple of them gon' hate,

yeah

Talk behind your back and smile up in ya face

Oh girl, we can prove 'em wrong and show 'em how it's done

And girl I know that we can do it just because If we're wild and out, we got that

Forgiving, we got that

Talkin' 'bout how we feelin', we got that

If it's hanging out, keeping it real then we got that

Me and you will know what the deal is but Since we ain't 21, they be tryna say it ain't love

'Cause we can't hit the clubs, they be tryna say we're too young

I ain't sayin' that we're tryna be grown

I'm just saying that we're old enough to know

We got that young love, young love, a teenage love
We can hit a show, kick it on the block
Everywhere we go, you know that we got that
Young love, young love, young love, a teenage love
'Cause talking on the phone or laying at the
spot
No matter what we do, you know they can't stop that
Young love, young love, young love, a teenage love
Since we ain't 21, they be tryna say it ain't
love
'Cause we can't hit the clubs, they be tryna say we're too young
I ain't sayin' that we're tryna be grown
I'm just saying that we're old enough to know
We got that young love, young love
Young love, young love
Everything I need I got in my young love
Well, it's my young love, young love
Everything I want I got in my young love
Young love, young love
Everything I need I got in my young love
Well, it's my young love, young love
Everything I want I got in my young love
Young love, young love
Everything I need I got in my young love
