

I'm Grown

Tiffany Evans

"I'm Grown"
(feat. Bow Wow) Dark child
Yes yelling to the lite beat and
It's b-dub and tiffany and
We are in the place to be and
We came in to move your feet and
Get things jumping like they supposed to
Teen magazines were jumping right out the posters
Can't believe what you seeing then look closer
I know you can't believe she getting older
She's just a teen,
So how could she
Really know what she wants
I can't believe
You'd think I'd run and tell you're mean to me
When it's really like
She mean ain't she
I know just what you think
You're so stuck in the past
Like stone-washed jeans
And I can endorse
Anything through me
I'm flyer then you'd ever thought I'd be You wonder why I'm so cold
You coulda been more involved but no
I'm not the girl that you knew before
I can't believe you didn't know I'm grown
I'm grown now
Certified and all that
You say want you want
You can't take a thing from me
I'm grown now (oh) I... I... I... I'm grown now (I'm grown)
I'm grown now
Got my own money
You ain't gonna run me
I ain't no dummy
I'm grown now (yea...) I... I... I... I'm grown now (I'm grown) I can't believe, they tryna block me
But your still playing them games I thought you'd be
Up in my lead but no you can't compete
Back up don't touch gotta give me 50 feet
Cause I'm on another level
I'm bringing things to life like I'm Japetto
This is the last time that I'm gonna tell you

I'm doing it big now, you wanna piece let it go You wonder why I'm so cold
 You coulda been more involved but no
 I'm not the girl that you knew before
 I can't believe you didn't know I'm grown I'm grown now
 Certified and all that
 You say want you want
 You can't take a thing from me
 I'm grown now (oh) I... I... I... I'm grown now (I'm grown)
 I'm grown now
 Got my own money
 You ain't gonna run me
 I ain't no dummy
 I'm grown now (yea...) I... I... I... I'm grown now (I'm grown) Aye tiff yo big brotha got you, it's
 nothing
 You push one hand to the cloud then back to the wind
 Bow and tiff evans is back at it again
 Yea ma you grown go on and let you rims spin yea
 You got ya lil premiers
 These 50 lil days go on and let you paint drip (drip drip drip)
 Tell your parents don't trip
 And with ya girls go on ya lil trips
 It's your world lil mama it's your life to live
 Believe that I'm not those girls your used to dating
 I gotta unique situation (I'll tell you the truth)
 You can travel the world but you'll never find
 Someone (that does what I do)
 I'll have you open cause I'm grown now
 Certified and all that
 You say want you want
 You can't take a thing from me
 I'm grown now (oh) I... I... I... I'm grown now (I'm grown)
 I'm grown now
 Got my own money
 You ain't gonna run me
 I ain't no dummy
 I'm grown now (yea...) I... I... I... I'm grown now (I'm grown) I... I... I... I'm grown now
