

I Wish That I

Cas Haley

I wish that I
Was a master of saying goodbye
I wish that you
Understood that I love you
I wish that we
Could be ourselves and still be happy
I wish that I
I wish that I Girl your love is making my dizzy
Keeping my busy, broke and unhappy
Stop it up, get on out, are we through?
This love is taking us up
Down, right, left and all around
I said this love is taking us up
Down, right, left and all around, all around
Alright, oh, oh
Well you know We fuss, we fight, we stay up all night
We love, we hug, just to make it right
Seems to make it better for an hour or two
Then I do something you don't want me to
My goal is no control or to compromise
Yes, meeting in the middle and don't tell no lies
No, don't tell no lies, no, no
No, don't tell no lies Girl your love is making my dizzy
Keeping my busy, broke and unhappy
Stop it up, get on out, are we through?
This love is taking us up
Down, right, left and all around
I said this love is taking us up
Down, right, left and all around, all around
Yeah, yeah
Alright, I wish that I
Well, you know
I wish that I, yeah
Oh, I wish that I
No, don't tell no lies, no, no
I wish that I Girl your love is making my dizzy
Keeping my busy, broke and unhappy
Stop it up, get on out, are we through?
This love is taking us up
Down, right, left and all around
I said this love is taking us up
Down, right, left and all around, all around
