

# Fire We Make

## Alicia Keys & Maxwell

Yeah, it's crazy, it's crazy, come on, come on  
Yea hee hee, I wanna tell you really,  
oh yeah, wanna know yeah  
I wanna know yeah Hey baby how you doing tonight  
I wanna let you know, I wanna tell just how I feel  
Don't wanna love you baby and it's going so right  
I wanna burn a candle, turn the darkness to the light  
With the fire we make, it's getting hotter and hotter  
Like a moth to a flame, I can't stay away  
From the fire we make,  
It's getting higher and higher  
Like the night to the day  
I can't stay away, no no no  
Stay away... Hi baby, won't you tell me the truth  
You wanna be the one, you can't stay away  
Hey darling, don't you mean no excuse  
We can chase this on, and burn the hole inside you  
From the fire we make it's getting hotter and hotter  
Like a moth to a flame, I can't stay away  
With the fire we make it's getting higher and higher  
Like the night to the day  
I can't stay, I can't stay away This abyss of the world and it takes us to the stars  
It's getting higher and higher  
It's the fire we make it's the fire we make  
Getting sweeter and sweeter  
Like a night to a day  
I can't stay away, say is, no no Can't stay away, no no no  
I wanna tell you, I wanna love you,  
I just wanna stay with you  
I can't be done, just can't stay away,  
I wanna make some much fire with you  
Baby  
I wanna go, gonna go, to you darling  
Yeah yeah
