Who'd take my hand
Who'd take my hand
I wanna show you
Something that you never seen Why don't you come
Look at me so
He breaks my hand
So many times Never felt, never felt
Never felt, love
Never felt, never felt
That love could hurt so much
That love could hurt so much
I can't believe that I'm seeing this love
I can't believe that I'm seeing this love
I can't believe that I'm seeing this love Still hold her close
Her close Wake up now, wake up now, wake up now
Wake up now, wake up now Who'd take my hand
Who'd take my hand
I wanna show you
Something that you never seen Never felt, never felt
Never felt, love
Never felt, never felt
That love could hurt so much
That love could hurt so much
I can't believe that I'm seeing this love
I can't believe that I'm seeing this love
I can't believe that I'm seeing this love I can't believe that I'm seeing this love
I can't believe that I'm seeing this love
I can't believe that I'm seeing this love
