## **Sugar (Gimme Some)**

## **Trick Daddy**

Uh huh, yeah, aw, man
I got a sweet tooth, can you dig it?
After this one you gon' need a root canal
I love sugar all of itThis one for all the nice clean

Decent women

Lay it on me, girl

Pay close attentionShe put that sugar on my tongue

She's gonna gimme, gimme some

She put it right there on my tongue

(Sweet, sweet, lover, lover)

Right there on my tongue

(She turns me on, like no other)

And gimme some of your butter pecan

Put it right there on tip of my tongue, put it

Right yeah, 'cuz, baby, if I bite you

I bet you like itFrench Vanilla's a hell of a flavor for me

With strawberries, two cherries and whipped cream

The best dreams are the wet dreams

And uh, the rest is just a flick without a sex sceneOrally, I speak the truth

'Cuz the blacker the berry

The sweeter the juice

Cuz, Florida oranges and Georgia peachesWhen they nice and ripe

They the best for eatin'

All these southern boys be cravin'

For a whole slice of pie after they main course

So if you game for it

I came for it

I got a thang for ya

That I can't ignoreShe put that sugar on my tongue

She's gonna gimme, gimme some

She put it right there on my tongue

(Sweet, sweet, lover, lover)

Right there on my tongue

(She turns me on, like no other)She put that sugar on my tongue

She's gonna gimme, gimme some

She put it right there on my tongue

(Sweet, sweet, lover, lover)

Right there on my tongue

(She turns me on, like no other)She put that sugar on my tongue, tongue

Yippie yippie, yum yum

Goodie goodie gum drop

Put me in a tongue lockDid it till my body went numb, numb

## Laid her on her back, back

Turned her round, gave her bottom a smack, smack

She's a woman from the block with the best of weedBut I won't stop till I'm pullin' out tracks,

tracks

It was lust at first sight

And she couldn't help sayin' that she wanted to get with me

And my size was just rightBut she wanted a man with a little security

Said, I been around the world twice

And my name ring bells from Atlanta to Sicily

Said she wanted it all night

So put the bubbles in the tub and Ludacris she needShe put that sugar on my tongue

She's gonna gimme, gimme some

She put it right there on my tongue

(Sweet, sweet, lover, lover)

Right there on my tongue

(She turns me on, like no other)She put that sugar on my tongue

She's gonna gimme, gimme some

She put it right there on my tongue

(Sweet, sweet, lover, lover)

Right there on my tongue

(She turns me on, like no other) Yeah, yeah, yeah, yeah, yeah, yeah

Yeah, yeah, yeahSweetie you look so incredible

So delicious and so damn edible

All I need is some honey or syrup

With a lil' butter to rub down all your curvesAnd no need for the lemonade

Just a twist of lime and some grape Kool-Aid

Can I call you Caramel?

'Cuz I'm 'bout to go coo-coo to taste your Coco PuffsOne bowl ought to fill me up

But that milk gotta be cold enough

So supper time that'll hold me up

I might choke myself if I don't slow it up, butHoney, you look like a honeydew melon

Or strawberry with the whipped cream filling

Of the top part of the peach cobbler

But uh, the fruit platter ought to do me betterShe put that sugar on my tongue

She's gonna gimme, gimme some

She put it right there on my tongue

(Sweet, sweet, lover, lover)

Right there on my tongue

(She turns me on, like no other)She put that sugar on my tongue

She's gonna gimme, gimme some

She put it right there on my tongue

(Sweet, sweet, lover, lover)

Right there on my tongue

(She turns me on, like no other)
