

Invitation to Understanding

MxPx

Come on understandin', visit me for once today
I'll be grateful, you don't even have to stay
It must be hard for you to get over to my side of town
I know there's many people like me to be found
If you come knockin' at my door and I am not
around
Foolishness came by and went downtown
Please don't leave, please come on in and make yourself at home
I know you're probably used to being alone
Everyone keeps tellin' me you're somethin' that
you're not
But I know if I met you I'd like you a lot
What exactly does it take to bring you to my door
By the time that you arrive I won't live here no more
If you come knockin' at my door and I am not around
Foolishness came by and went downtown
Please don't leave, please come on in and make yourself at home
I know you're probably used to being alone
What can I do?
There's no one here but me
And nothin' on TV
Who could you be?
I really wouldn't know
Where else you might go
If you come knockin' at my door and I am not around
Foolishness came by and went downtown
Please don't leave, please come on in and make yourself at home
I know you're probably used to being alone
I know you're probably used to being alone
I know you're probably used to being alone
