

# Show Me (feat. Ying Yang Twins)

## Sammie

Set it up, knock it down  
now its heard about all over town  
turn it up, then turn around  
and give them what they really want  
meet me at the show, meet me at the show  
come & meet me at the show, meet me at the show  
Look like they need it now  
can't go without, can't hit the club  
without showin out  
this is us, they know it now  
at least this is what they really want  
meet me at the show, meet me at the show  
come & meet me at the show, meet me at the show.

[Verse 1-

you know with the music comes the fame  
the fans showin love, but its just aint the same  
i need your love, need your touch by my side  
back stage supportin when I'm singing on the mic  
be my producer come & tell me what you like  
just let me know & i can send you on a flight  
i know your workin' steady workin' on the go  
& your on tour getting ready to perform so

[Verse 2-

Baby, been thinkin about you lately  
your always on my mind  
too bad were short on time  
both of us always on the go  
performing every night cause thats all we know  
don't want to be looking all alone  
they waitin for us at the door  
come do it for the money, do it for the show  
baby I'm ready say your good to go  
come on come & get me, say you'll come & get me  
& that your gonna help me, help me, gonna help me  
[Verse 3-Out the window thinking bout you out those g4 doors  
tonight im in Paris & we both on tour  
unless its like the last time what you take off for  
I mean miss what we had when we both want more  
yeah

Do what you do, look pretty for me though  
Yeah, they aint gotta know we can keep it on the low  
Yeah im probably fucking drunk & im Probably off that Dro  
But you always got me higher yeah you already know  
Come over after, its a private show

yeah  
when you in my room you can drop it for me slow  
and every time we kiss see i cant let you go  
yeah I dont think they know what we feel is not a show
