

# All I Know (feat. Kes)

[DaniLeigh](#)

I know I can't afford to stop  
For I know much that is too soon to You, you wanna lay up all this time and I don't mind  
But I need my freedom compromised and I've been by your side  
But I need space right now  
Got my mind on my money, gotta hustle 'cause it's go time (time)  
I just got to do me... me  
Yeah, that's all I need I got to be free  
Baby, we both know I know I can't afford to stop (all I know)  
I know I can't afford to stop  
I just can't afford to stop long as you know (I can't afford to stop)  
All I know  
I know I can't afford to stop  
I, I got ambitious can't deny that you treat me right  
You gotta understand my pride  
Won't let me settle down, I just can't right now  
If you're around when I come back around then we might vibe  
I just got to do me... me  
Yeah, that's all I need I got to be free  
Baby, we both know I know I can't afford to stop (all I know)  
I know I can't afford to stop  
I just can't afford to stop long as you know (I can't afford to stop)  
All I know  
I know I can't afford to stop Baby, can you stay around, stay around, stay around  
Baby, I just can't right now, can't right now, can't right now  
Baby, girl I need you now, need you now, need you now  
Gotta get this paper, paper, Imma have to chase it down  
Baby, we both know  
I know I can't afford to stop (all I know)  
I know I can't afford to stop  
I just can't afford to stop long as you know (I can't afford to stop)  
All I know  
I know I can't afford to stop  
I know I can't afford to stop for I know much that is too soon
