

# Inseparable

## Jonas Brothers

Take my hand tonight  
We can run so far  
We can change the world  
Do anything you want  
We can stop for hours  
Just staring at the stars  
They shine down to show us You know when the sun forgets to shine  
I'll be there to hold you through the night  
And we'll be running so fast we can fly, tonight  
And even when we're miles and miles apart  
You're still holding all of my heart  
I promise it will never be dark  
I know... we're inseparable  
We could run forever if you wanted to  
I would not get tired  
Because I'd be with you  
I'd keep singing this song  
Until the very end  
We'd have done all these things You know when the sun forgets to shine  
I'll be there to hold you through the night  
We'll be runnin' so fast we can fly tonight  
And even when we're miles and miles apart  
You'll still be holdin' all of my heart  
I promise it will never be dark  
I know... we're inseparable  
I will give it all  
Never let you fall  
But you know we're inseparable  
I would give it all  
Just to show you I'm in love  
Cause you know  
We're inseparable You know when the sun forgets to shine  
I'll be there to hold you through the night  
We'll be runnin' so fast we can fly tonight  
And even when we're miles and miles apart  
You'll still be holdin' all of my heart  
I promise it will never be dark  
I know... we're inseparable
