

# Ghosts

Jake Owen

He said he had to stop, he hadn't had a drop of anything  
Stronger than coffee in 10 months 3 weeks and 1 long day  
He pushed away his plate and said, it's better late than never done  
When it comes to gettin' right, it took a while but I saw the light  
He said, some things, they cast  
long shadows  
That I never will out run and everyday I spend a-livin'  
The ghosts of all the things that I've done  
wrong  
Grab a chair 'cause the list is long  
I can write you a country song  
About the reasons I'll be going home  
To a house full of memories  
Things I wish I done differently  
When I'm feeling weak, they keep me strong  
The ghosts of all the things that I've done wrong  
He said, there's a spot of paint  
And it just ain't the right shade  
But it covers up the hole I've made  
Where I broke my wrist the night she left  
And there's a lot of friends  
That I ain't never seen in a lot of years  
Some are still hangin' 'round  
In old pictures I just can't take down  
He said some things  
They cast long shadows  
That I never will out run  
And everyday I do battle  
With the ghosts of all the things I've done wrong  
Grab a chair 'cause the list is long  
I can write you a country song  
About the reasons I'll be going home  
To a house full of memories  
Things I wish I done differently  
And when I'm feeling weak, they keep me strong  
The ghosts of all the things that I've done wrong  
I got a heart full of memories  
Things I wish I'd done differently  
And when I'm feeling weak, they keep me strong  
The ghosts of all the things I've done wrong  
He said he had to stop  
He hadn't had a drop of anything  
Stronger than coffee in 10 months 3 weeks  
And 1 long day
