

Silence

THEY.

Nigga we've be looking for the silence
You know how it is, you know the way it goes
This is what it feels like to be honest
Don't act like you ain't never been here before
We don't give a fuck about the mileage
We ain't really here 'cause we just come and go
This is what it feels like to be honest
You know how it is, you know the way it goes
Hit this, isn't it twisted how we just sit here
puffing all day?
Hit this, isn't it this shit, what we be missing, wanted all day?
We light and
We float and
It's all for the silence
We live and
We learn and
We long for the silence
We light and
We float and
It's all for the silence
We live and
We learn and
We long for the silence
You been tired of the sirens
I been running from the lights
You been searching for the silence
Just to light it up tonight
Hit this, isn't it twisted how we just sit here puffing all day?
Hit this, isn't it this shit, what we be missing, wanted all day?
We light and
We float and
It's all for the silence
We live and
We learn and
We long for the silence
We light and
We float and
It's all for the silence
We live and
We learn and
We long for the silence
Usually people ask the simple question
They'll ask, how was it?
I think I see it, tell me?
So thank you
It's like you just
We light and
We float and
It's all for the silence

We live and
We learn and
We long for the silence We light and
We float and
It's all for the silence
We live and
We learn and
We long for the silence
