

# Stranded (feat. Broods, Reggie Watts & Saro)

## Flight Facilities

[Chorus]

Everything seems to be  
Falling apart  
In some technicolor  
And oh, I saw you put your soul  
In the cast  
Of what used to be our love[Verse 1]  
Thoughts seep in  
Feel it in the morning light  
Dreams again  
Of you and I  
And how I long for you  
Holding on  
All by my lonesome  
We're stranded in this life

[Chorus]

Everything seems to be  
Falling apart  
In some technicolor  
And oh, I saw you put your soul  
In the cast  
Of what used to be our love[Verse 2]  
When I woke up  
Nothing was the way it seemed  
A body needs  
Torn between the force inside  
Then I broke out  
Realised what you were to me  
And though we tried  
Could we have known what love was like?  
I know it might go wrong  
If you and I go on  
In time I can let go  
I can only hope  
Ah yes, I know it's so cold

[Chorus 2]

Ooh in some technicolor  
Ooh of what used to be our love[Bridge]  
'Cause I've been branded, stranded  
Holding up these walls  
And when she sees, and I know  
Someone's got the best of my

Oh got the best of my soul  
Still up on you, so long  
And I'm outside baby, and I don't know why  
All this time, you were fine when you know  
I've been dead inside  
I know it's so cold  
I can see, it will rise  
I don't care how it arrives  
Will it be all our lives  
Hiding from the fear inside?  
And I've been branded, stranded  
Holding up these walls  
And when she sees, and I know  
Someone's got the best of my  
Oh got the best of my soul[Chorus 2]  
In some technicolor  
Of what used to be our love
