

# Summer Shudder

[AFI](#)

Listen when I say, when I say it's real  
Real life goes undefined, why must you be so missable?  
Everything you take makes me more unreal  
Real lines are undefined, how can this be so miserable? Under the summer rain  
I burned away  
Under the summer rain, burn  
You turned away Listen, I can't make, make a sound or feel  
Feel fine, I kissed the lies, why must they be so kissable?  
Listen as I break, break the fourth wall's seal  
Gorgeous eyes shine suicide, when will we be invisible?  
Under the summer rain  
I burned away  
Under the summer rain, burn  
We burned away Under the summer rain  
I burned away  
Under the summer rain, burn  
You turned away This is the fall, this is the long way down  
And our lives look smaller now, and our lives look so small  
This is the fall, this is the long way down  
And our lives look smaller now, and our lives look so small Under the summer rain  
I burned away  
Under the summer rain, burn  
We burned away  
Under the summer rain, burn  
I burned away  
Under the summer rain, burn  
You turned away
