Pick a town, lock it down
Chrome Hearts, Chrome Hearts
Bitches love my style
Look at how my wrist glow, huh
Two-fifty just for the watch, uh
Post on the block, I was servin' for dollar
I caught a wave, it's amazing, Margiela
Audemars, water, Beretta, vendetta
Stella McCartney, you came with the bezel
Takin' off just like a rocket, got racks in my pocket
I'm havin' my way with these hoes
Shawty in love with my diamonds, she love how they twinkle
She love how they glisten, they glow
Pour up a four like I'm young Tony Stoke

One in the head, 99 more to go
Went in a winner, pull up like a GOAT
Trippin' and spillin', chinchilla on the floor
Came from the gutter, that's word from the bro
I'm Evel Knievel, these niggas some divas
I'm really havin' more hits than The Beatles
I was out trappin' with keys like Alicia
I be finessin' my plug, got it cheaper
Bought some new killers, I bought some new choppers, hey
I'm on the block with the Devil, I hang with the robbers
Any hood we go, they treat me like God, huh
Switch up the flow for the visual
Just so you know that I'm spiritual
All of my money identical
Blue faces, blue faces, keep it one hundred
They want that Woo shit
Niggas gon' shoot your shit
You ain't no Woo, nigga
You ain't gon' do shitDamn, snitchin'
