

# It Don't Matter (feat. Anderson .Paak)

## Moonbase

I don't fear much, not at all  
Not a word, they don't matter  
I took too long, plus  
I'm a sicko, forgot all about it  
Any one of y'all can talk about it  
What you talking 'bout, it just don't matter  
Never been the one to talk about it  
It just don't matter One, I don't give a  
Two, I don't give a  
Three, before I ever fuck with ya  
Bare my soul, my heart's a torpedo  
Leave no stone, we learned from the builder  
Dead everyone, who dare to go against ya  
Lord keep me away from fuck niggas  
In them blacked off, in dual exhaust  
With stick rims, I'm going dark again  
You outta opt again  
Niggas talking, yeah, I'm all about it  
Especially when my name remains in all topics  
I don't give a fuck!  
"You see the way my feelings are set up & all"  
I can't stand & none of you I'ma scared of it  
Got a little bitty bag of yayo  
'Bout to take that bitch to Space Mountain  
More powder!  
I don't really give a fuck what they told ya, no  
It just don't matter I don't fear much, not at all  
Not a word, they don't matter  
I took too long, plus  
I'm a sicko, forgot all about it  
Any one of y'all can talk about it  
What you talking 'bout, it just don't matter  
Never been the one to talk about it  
It just don't matter  
One, I don't give a  
Two, I don't give a  
Three, before I give a fuck about it  
If anybody run it, we run it  
Fool talk about it  
We the ones who putting in them numbers  
You keep counting  
One, bad bitch with legs just like stallions

Ass like an onion, long lines of powder  
It's been a cool year, no problems  
But Wikiped' say I need more allowance  
More gasoline, more power  
More diesel, more sour  
I keep a cool head, pray about it  
But when I'm sleeping  
I can hear you niggas plotting! Got a little bitty bag of yayo  
'Bout to take that bitch to Space Mountain  
More powder!  
I don't really give a fuck what they told ya, no  
It just don't matter More power!  
It don't matter! I don't fear much, not at all  
Not a word, they don't matter  
I took too long, plus  
I'm a sicko, forgot all about it  
Any one of y'all can talk about it  
What you talking 'bout, it just don't matter  
Never been the one to talk about it  
It just don't matter
