

Killing You

Broods

You like to call me when I'm alone
Tell me that it's all for me
And I wish that I was home
But we could make it fall on the weekend
Oh we can make it fall on the weekend
But it's killing me
And it's killing you
Cause I wish you were here
And it's killing me
And it's killing you
Cause I wish you were here
And it's killing me
And it's killing you
Cause I wish you were here
And it's killing me
And I'm killing you
But we could make it fall on the weekend
I got your picture everywhere I go
Telling all the boys I'm yours
And I know that it doesn't show
But I could make it fall on the weekend
I could make it fall on the weekend
But it's killing me
And it's killing you
Cause I wish you were here
And it's killing me
And it's killing you
Cause I wish you were here
And it's killing me
And it's killing you
Cause I wish you were here
And it's killing me
And I'm killing you
But we could make it fall on the weekend
Why chase three weeks everywhere you are
Two men know better guess who we are
Why chase three weeks everywhere you are
Everywhere you are But it's killing me
And it's killing you
Cause I wish you were here
And it's killing me
And it's killing you

Cause I wish you were here
And it's killing me
And it's killing you
Cause I wish you were here
And it's killing me
And I'm killing you
But we could make it fall on the weekend
