

Nothing On We

Chiddy Bang

[Intro:]

Yeah

Look what we have here, hero [Chorus:]

And everything ain't what it seems

And this is for the people that's chasing they dreams

Get your money hustlin' love

So could you get your money hustlin' love

But don't let them take it, rules we breakin'

Tryin' to get it cause we overachieve

Mama I made it, now they hate it

But you could trust they got nothing on we

Nothing on we

[Verse 1:]

And everybody needs a hero

Just another number, they rather you be a zero

But you could make it out, be patient with no surgery

Somebody call 9-1-1, it's an emergency

The kids need a hero, let us get bread

They follow everything, they seein' and embed in they head

Custodian clean, get Banks, bring Cody in

And I bet that you probably into that Nickelodeon

They gon' watch it on the TV screen

And when you sleep remember it and retrieve these dreams

We livin' the good life we don't need these fiends

And when we focus it's easier than the free throw seems

Cousins without clothes, tell them keep those jeans

Buzzin' they top rows, now we beat those teams

Victorious, and can we bring this to the chor-e-us

And sure he is, a boy meetin' world like Cory is

[Chorus:]

And everything ain't what it seems

And this is for the people that's chasing they dreams

Get your money hustlin' love

So could you get your money hustlin' love

But don't let them take it, rules we breakin'

Tryin' to get it cause we overachieve

Mama I made it, now they hate it

But you could trust they got nothing on we

They got nothing on we And you could tell they got nothin' on we

And you could tell they got nothin' on we

You could tell they got nothin' on we

You could tell they got nothin' on we

And you tell could they got nothin' on we[Verse 2:]
And if you dream that you could grab it
When obstacles arrive you drive past it
I learned there's more to life when we had a smash hit
And the only thing guaranteed in life is a casket
That's why I live it up
They try to rob me of my dreams, they told me give it up
Uh, I said I refuse, this journey I pursue
And what I do to haters, I made them my own muse
Kinda funny, I'm amused
They say your mind is the most powerful thing to use
But I hope it's just powerful as the Pope is
Beamer, Benz, or Bentley, like Ford I got Focus
Yeah see you could do it if you follow with
Look into the stars, they shootin' with no hollow tips
And it isn't what it seems
So just like Yeezy, we steady gettin' out our dreams
That's G.O.O.D[Chorus:]
And everything ain't what it seems
And this is for the people that's chasing they dreams
Get your money hustlin' love
So could you get your money hustlin' love
But don't let them take it, rules we breakin'
Tryin' to get it cause we overachieve
Mama I made it, now they hate it
But you could trust they got nothing on we
They got nothin' on weAnd you could tell they got nothin' on we
And you could tell they got nothin' on we
You could tell they got nothin' on we
You could tell they got nothin' on we
And you tell could they got nothin' on we
