

# Burn (feat. Big B)

## Moonshine Bandits

Dance with the devil on a pale moon light  
Car full of smoke with a jar full of shine  
I put love in the club where there's all black lights  
I get love from the clubs where there's all black bikes  
Spend an over nighter paid my dues  
The family full of shiners ain't got nothing to prove  
Cash in the stereo cocaine blues  
See the blue lights flash but they won't find booze  
Finger on the highway I'm living wide open  
Can't [?] that you see me smokin'  
Backroads buzzin cause they love me in the valley  
Got me spreading like a wildfire burning up Cali  
Let's all ride, into the night  
Cause we're in your town  
We gonna burn this building down  
Let's all ride, into the night  
Cause we're in your town  
We gonna burn this building down  
Let it burn Fire fire watch this motherfucker burn  
So you want to talk shit get in line and wait your turn  
Respect ain't given it's earned  
You need to learn  
I'm a roughneck that likes rough sex  
Cash and big checks  
Who grew up rocking oldschool hip hop and country in my tape deck  
Cadillac [?]  
What I'm riding on from Japan back to killer Cali  
So operator operator 911  
We about to burn the whole town down before we done  
Rowdy rowdy ask somebody  
Big B in the building and we came here to party  
Keep the tie, keep the slacks  
I'm wearing all black tall can and the [?]  
Banging out to [?] let the mirror rattle back  
The industry's blurry I'm the answer to your cataracts  
Back like a Chevy brand new lift  
I got the old school cowboys bobbing to this  
Riding on the white line clutching the fist  
I got the old school outlaws bobbing to this  
Came from the bottom with a brand new sound  
I built what I got damn right I'm proud  
There ain't no grave that can hold me down

And there's only one God that can judge me now  
We gonna burn, we gonna burn  
We gonna burn this building down
