

# Can You Feel It

Scotty McCreery

Hey girl, do you feel that temperature drop?  
That time, time, goin' tick-tock  
The whole world spinning then stop  
Well, can you feel it?  
What about that breeze that's blowin' through  
Pullin' me next to you  
Tellin' us what to do  
Well, can you feel it?  
Those stars are shinin', dancin' on your pretty skin  
Baby, here we go again, whoa, oh  
When, when you get close to me  
Girl, you make my heart beat  
Can you feel it, every time that you start leanin' in  
Baby, I'm all mixed up  
Talkin' 'bout that rush  
From your touch  
All these feelings creepin' up  
7 billion people in the world  
But it feels like two  
And baby, I'm feelin' you  
So, tell me, can you feel it, feel it  
Baby, tell me can you feel it too  
Hey girl, what about that cool green grass  
That lake, lake, lookin' like glass  
That morning comin' too fast  
Can you feel it?  
Hey, hey, whatcha think about that rush  
Of the water when the creek comes up  
Kinda chilly but it's real good stuff  
Can you feel it?  
Well, dip your toe, maybe your leg, maybe your whole self in  
I feel us fallin', fallin', here we go again  
When, when you get close to me  
Girl, you make my heart beat  
Can you feel it, every time that you start leanin' in  
Baby, I'm all mixed up  
Talkin' 'bout that rush  
From your touch  
All these feelings creepin' up  
Can't you feel it getting late  
Baby, don't you wanna stay  
Up all night, maybe sleep all day  
What do you say, hey  
When, when you get close to me  
Girl, you make my heart beat  
Can you feel it, every time that you start leanin' in

Baby, I'm all mixed up  
Talkin' 'bout that rush  
From your touch  
All these feelings creepin' up
