

# Inside Out

Stan Walker

Maybe I'm not the one, you thought I'd be  
Maybe I'm too fast, maybe just a little too slow  
Am I not your type, or what you like  
Maybe i'm too short, maybe just a little too tall And you know it, like I know it  
But you ain't never wanted me before  
But you feel it, like I feel it  
so you better listen carefully  
Cause I'm about to give you some more  
Theres nothing you can ever do to break me  
oh trust me I've seen it all, I ain't about to fall  
Don't think I'll change cause you said it baby  
'Cause what you see is what you get  
And if you don't, then you don't get it  
This is who I am, if you look within  
You will see this is from the inside out  
Take me as I am, this is all of me  
You will see this is from the inside out  
Inside out, inside out  
You can see it's from the inside out  
Inside out, inside out  
You can see it's from the inside out I love, I cry, I believe, I believe, I pray  
'Cause I know who's in me  
and if you want the answers  
I know that I can find them inside of me  
And you know it, like I know it  
But you ain't never wanted me before  
But you feel it, like I feel it  
so you better listen carefully  
Cause I'm about to give you some more  
Theres nothing you can ever do to break me  
oh trust me I've seen it all, I ain't about to fall  
Don't think I'll change cause you said it baby  
'Cause what you see is what you get  
And if you don't, then you don't get it This is who I am, if you look within  
You will see this is from the inside out  
Take me as I am, this is all of me  
You will see this is from the inside out  
Inside out, inside out  
You can see it's from the inside out  
Inside out, inside out  
You can see it's from the inside out The fire burns, the vines they choke  
Though the storms may come

And the seas they roar  
Evan if troubles come my way,  
im gonna be here to stay  
Never gonna let you take away,  
who I am I'm okay  
Okay you said enough,  
I ain't about to change  
"Cause what you see is what you get  
And if you don't then you don't get it  
This is who I am, if you look within  
You will see this is from the inside out  
Take me as I am, this is all of me  
You will see this is from the inside out  
Inside out, inside out  
You can see it's from the inside out  
Inside out, inside out  
You can see it's from the inside out
