

Loneliness (Radio Cut)

Tomcraft

Happiness and loneliness
Happiness and loneliness
Happiness and loneliness
Happiness and lonelinessHappiness and loneliness
Happiness and loneliness
And lonelinessHappiness seems to be loneliness
And loneliness chilled my world
How could you guess, when you're only thinking of yourself?
How you looked to other girlsHappiness seems to be loneliness
And loneliness chilled my world
How could you guess, when you're only thinking of yourself
How you looked to other girls
Happiness seems to be loneliness
And loneliness chilled my world
How could you guess, when you're only thinking of yourself?
How you looked to other girlsHappiness seems to be loneliness
And loneliness chilled my world
How could you guess, when you're only thinking of yourself?
How you looked to other girlsHappiness seems to be loneliness
And loneliness chilled my world
How could you guess, when you're only thinking of yourself?
How you looked to other girls
Happiness seems to be loneliness
And loneliness chilled my world
How could you guess, when you're only thinking of yourself?
How you looked to other girls
