

Vanish (feat. Swoope)

Christon Gray

All I know is I don't know nothing
I wish I had it figured out by now
My fair lady's in a dungeon
My lovely London bridge is falling down Watching from the distance
Wish I could make a difference
But I just make it difficult
So, I'm grabbing my binoculars
Cuz' I don't want to get close
I've done enough damage for the both of us
Thinking I should hit the road
Get invisible
Vanish
But, if I wait too long
You just may be gone forever
And I can't leave you here
We gone disappear together Any longer, we can't harbor
The ship was never really safe at bay
I learned to love your shining armor
Don't forget to let me lead the way
Mama used to tell me if it ain't broke, don't break it
So, why I'm trying to fix what's broke with no payment?
No payment, I ain't have enough for the damages
So, I put it down before I damage us
Disappear, I'm sure this appears as apathy
Now you mad at me and it's tragic
We are drowning in an ocean of your tears, wells
And I'm more of like a whale in that well
Killer, toxic to my damsel in distress
So, I step back watching you just handle this stress
Try to weight it out, trying to let you do you
But I make them vows, I don't want to lose you
Ready or not, here I come
Olly olly oxen free, my dear I run
Whether a faucet or Titanic
Sink or swim
I promise you I won't vanish (Sounds of Oohing)
