

Country Folks (feat. Colt Ford)

Bubba Sparxxx

Country fried baptized in gravy
cant wash off what the good lord made you
no matter how far that highway goes
an old dirt road will get you home (come on)
if you can see it in their eye when they try to lie
if your the bullet hole in the stop sign kind
then I'm right there with ya put your drinks up high
for my country folks(hey)
my country folks (hey)
Im out here on a thousand acre plot of land
and i cant hear em hating on me I'm a modest man
talking with jimmie matheson he got a plan
and when he talk i listen to him
thats a lot of man
he said we need to take it back to the root of it
i put on for the country thats the truth of it
Im talkin last millenium we was repping it
before anybody had accepted it

cant wash off what the good lord made you
no matter how far that highway goes
