

Bestie (feat. Yxng Bane)

Yungen

Ooh nah nah nah
Ooh nah nah nah
Ooh nah nah nah I tell her she my bestie, bestie, she my bestie (that's right)
They say we're too friendly, friendly, we're too friendly (no lie)
You know I make time for we (ohh lala)
When I'm juggin', I'm finished, she know that I'm creeping' to your house
Finally (ooh la la)
We're keeping it lowkey but these days you're doing the most now
Yo, I got notes, I get paid (get dough)

Finally (ooh la la)
We're keeping it lowkey but these days you're doing the most now Yo, let me show you the
wave?
Pretty boy fam, I take her boys babes
Sweet body, wanna know like I'm Dave
They don't wanna see my yellow face turn up in a Wraith
Man it's fucked up
I see most my old tings loved up
Don't make me slide in the DM's with a lovestruck
Yeah, I know they love this young buck
Many men, hide their girl from me
They got them on lock, but I got the key
They block me on insta, so I can't pree
Man I'll come and take their wife away
Many men, hide their girl from me

They got them on lock, but I got the key
They block me on insta, so I can't pree
But now I'll come and take their wife away I tell her she my bestie, bestie, she my bestie (that's
right)
They say we're too friendly, friendly, we're too friendly (no lie)
You know I make time for we (ohh la la)
When i'm juggin', I'm finished, she know that i'm creeping' to your house
Finally (ooh la la)
We're keeping it lowkey but these days you're doing the most now She my bestie, bestie, she my
bestie (that's right)
They say we're too friendly, friendly, we're too friendly (no lie)
You know I make time for we (ohh lala)
When i'm juggin', I'm finished, she know that i'm creeping' to your house
Finally (ooh la la)
We're keeping it lowkey but these days you're doing the most now Bonnie and Clyde, I love
how we ride
Pulled up on her with those suicides (skrrt)
You know I kill it, many boys keep strippin'
We can kick it for hours, hoe get the boot by the minute
I tell her footwork, footwork
When you do her, do her
You know your bodies crazy but that minds on business
I'm what you want, not what you need
When you ask me, "What are we?" You my bestie, bestie, she my bestie (that's right)
They say we're too friendly, friendly, we're too friendly (no lie)
You know I make time for we (ohh lala)
When i'm druggin', I'm finished, she know that i'm creeping' to your house
Finally (ooh la la)
We're keeping it lowkey but these days you're doing the most now
