Bad Luck

Khalid

Oh yeah, oh yeah, yeah
AlrightDon't save me
I'm in no need of saving (Oh yeah)
And if you stay with me
I know you need patience (Yeah, yeah)
Blood and cologne on the fragrance (Teah, yeah)
'Cause if ya deal with me
I know you know what pain is (Oh no)
So if you're gonna love me
You gotta love all of me
You gotta love, deeper than that
Now, if you're gonna leave me
You better run far away
I'd hate for you to leave me attached'Cause I'm in love with bad luck
I'm in love with bad luck
Move too close, get caught up
Move too close, get caught up
I'm in love with bad luck
I'm in love with bad luck
Move too close, get caught up
Move too close, get caught up
I'm in love (Yeah, yeah, yeah)
And I don't even like to think about it
On my own, but still so crowded
Walls come down and the guards come up
But there's nowhere to run, I feel surrounded
Hurt feels better when I'm by myself
No one really means it
When they're wishing you well
I got no one to call, no one
And people only love you
When they're needing your wealth
Damn, laying down, staring at my ceiling fan
Everybody acting like they give a damn
Where is everybody when you need a hand?
I've been burning rubber on the Michelin
Flying in the rain like I'm Superman
I could say I love it, but that just depends'Cause I'm in love with bad luck
I'm in love with bad luck
Move too close, get caught up
Move too close, get caught up
I'm in love with bad luck

I'm in love with bad luck
Move too close, get caught up
Move too close, get caught up
I'm in loveSo if you're gonna love me
You gotta love all of me
You gotta love, deeper than that
Now, if you're gonna leave me
You better run far away
I'd hate for you to leave me attached'Cause I'm in love with bad luck
I'm in love with bad luck
Move too close, get caught up
Move too close, get caught up
I'm in love with bad luck
I'm in love with bad luck
Move too close, get caught up
Move too close, get caught up
I'm in love with bad luckYeah
(I'm in love with bad luck)
Bad, bad luck
