

# Butterflies Pt. 2

## Queen Naija & Wale

You came, came into my life  
Then made everything right again  
I was once in a dark place  
I remember when you told me  
You were scared to fall in love again  
Still you found a way to fall for me I still get butterflies  
Crazy how we vibe  
Even we fight  
I still get butterflies  
Crazy how we vibe  
Even we fight  
Let's go everywhere together  
Turn two years into forever  
We'll make diamonds under pressure  
And turn the pain into pleasure  
I wanna have your last name  
No matter how long it takes  
You always make me feel so safe  
And that's how I know you're worth the wait I still get butterflies  
Crazy how we vibe  
Even we fight  
I still get butterflies  
Crazy how we vibe  
Even we fight  
Safe to say I'll know that  
You'll catch me when I fall  
Now I got you here  
Boy I'm giving you my all  
Dangerously in love  
I don't never wanna leave  
I know you feel the same  
You're the only one I see
