

# Operator

## Midnight Star

Would someone please hang that phone up {We're sorry, you must first dial a 1 when calling  
this number} Operator

Operator

Operator

Operator Operate that body, operate on me

Operate that body, take control of me

Operate that body, operate on me

Take control of that body, take control of me I called my baby up on the telephone

I get connected to a freaky zone

The conversation was strictly void

Said, "If you don't join the party, go home"

The operator said this was no mistake

"I've been connectin' every move you made"

I hope you're ready to do me right

I wanna operate my love tonight Operator, this is an emergency

Operator, baby, burning up on me

Operator, this is an emergency

Operator Operate that body, operate on me

Operate that body, take control of me

Operate that body, operate on me

Take control of that body, take control of me Person-to-person is how it's got to be

Just one-on-one, baby, you and me

Computer freakin' all night long

And you can bet that all my circuits are strong

Just call me up whenever you find the time

We'll get together on the party line

Let's take our time and do it right

We're gonna operate our love tonight Operator, this is an emergency

Operator, baby, burning up on me

Operator, this is an emergency

Operator Call me up any time (Any time)

I'm all in the mix because it's party time (I'm gonna  
take my time)

? gonna do it right (Do it right)

(I'm gonna operate your love tonight) Operator (Ooh... hoo...), this is an emergency

Operator, baby, burning up on me

Operator, this is an emergency

Operator Operator, this is an emergency

Operator, baby, burning up on me

Operator, this is an emergency

Operator {Operator, can I help you?}

Yes, I'm trying to, uh, reach my baby

And I dialed 616  
 {Hey sir, could you speak up a little louder because I  
 can just barely hear you}Operate that body, operate on me  
 Operate that body, take control of me  
 Operate that body, operate on me
