Selfish

TWENTY88

You know I ain't having that shit
(Got you Bitch)
How could you be so selfish
Phone off, careless
You ain't drinking no more that's bullshit
I heard your taking more shots than a full clip
No call, no text, huh?
That's how you feel when you stressed, huh?
You know I'm from a tribe called questions
I need them answers now like it's test time
Do you realize how many good girls I lost
When I changed the number for you
When I needed that peaceful sleep and still cuddled for you

You ain't even know when times get hard I bent up the budget I kept it subtle

Might as well put jackets over the puddles for you You're acting irreplaceable, pfft, bitch, hardly I feel like I chose the wrong bitch like Steve Harvey

When you back to me the morning time You got me on the borderline

I used to want to put the work in now I feel like overtime

When I hit you late night, texting

Phone off, no stressing

How could you be so selfish

Selfish, so selfish

Phone off, no texting

No pics, no calls, no sexting

How could you be so selfish

Selfish, so selfish

I can't help it

I can't help it

I can't help it

I can't help it

So, so selfish

Why would you just play with the one who been there with you when no one would come Can't believe I stayed faithful to somebody so ungrateful

Don't you know there's a line for my love

And you be out here lying on us

Ain't that some shit

Ain't that a bitch

And you wonder why the past has changed us Wonder why it ain't the same for us You keep fuckin it up it's all on you You just made it so hard for you Late night, texting Phone off, no stressing How could you be so selfish Selfish, selfish Phone off, texting No pics, no calls, no sexting How could you be so selfish Selfish, so selfish I can't help it I can't help it I can't help it I can't help it So, so selfish Breakdown I think it's time to breakdown Late night, texting Phone off, stressing Testing me now, stressing me out Out, out

How could you be so Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
