

Boing Clash Boom (Pierce Fulton Remix)

Dada Life

Now it's official
Ive sent my body on a mission
I left my brain where it's belonging
Cause I won't need it where I'm going
The heads are turning
We so beautiful it's hurting
Bring on bananas and the bubbly
because we are ready to get ugly
everybody lose it we are going to smash this room
everybody lose it but not until the boing clash boom
everybody lose it we are going to smash
this room
everybody lose it but not until the boing clash boom
cheating is winning
we keep on winning til the morning
and keep on smiling when we're ballin
while the boing clash keep on calling
everybody lose it
everybody lose it
everybody lose it we are going to smash this room
everybody lose it but not until the boing clash boom
